

## **PLANNING TO FALL: A PARADIGM SHIFT ON FALL SAFETY**

This course is designed to gain a better understanding of how to work within ANSI and OSHA standards. Attendees will be challenged to analyze the difference between being safe and being compliant, how to apply the Hierarchy of Controls, and when to evaluate practical aspects of implementing Fall Prevention, Fall Protection, etc. We will also review real-world solutions to complete work safely within complex and challenging environmental conditions.

**Presenters:** ANTHONY BOWERS, HEALTH AND SAFETY DIRECTOR, COLONIALWEBB  
BRAD MOHLER, VIRTUAL CONSTRUCTION MANAGER, COLONIALWEBB

Anthony Bowers, CSP is the Health and Safety Director at ColonialWebb in Richmond, Virginia. He is a graduate of Fairmont State University, with a Bachelor of Science degree in Environmental Health and Safety Engineering. He is a Certified Safety Professional and serves as Secretary of the American Society of Safety Professionals (ASSP) Colonial Virginia Chapter.
